BRIEF PROFILE :

THE COMPANY

Best maintenance engineering co. W.I.I - Best MEC was established in 1996 and now leading as one of the best sales and service provider in Qatar in air conditioning systems. from the last 16 years of our operations, we have earned a reputation as a highly dedicated and committed organisation keeping high values and ethics by setting and consistently meeting and exceeding high standards set by our clients, employees, suppliers, sub-contractors and the government organisation.

It is our hard work and diligence that engenders successful long term relationships with our clients, open communication and strong sense of the company as a family and a world class work environment. in short, our company's commitment to integrity is one of the core values that link each of us, regardless of location, work, assignment, language or customs.

More than a decade, we are being successfully associated with major companies like LG , Samsung ,York, Mitsubishi, Domasco, video home, techno blue, planet tech etc., as their trade and contract partners in executing HVAC installation and maintenance projects in Qatar.

As we are in the path of growing and transforming our organisation in to one of the best MEP project execution and maintenance company, we are very keen to establish new relationships with reputed firms like yours. we can assure you that our association with you will surely add values and more success to your organisation.
